

MAC MINIS

<https://ecombuild.wsgc.com/jenkins/computer/>

<https://confluence.wsgc.com/display/ES/Mac+Mini+Jenkins+Nodes>

Thanks for the follow-through,

@rkrishna2

. What I meant was for each person to check whether the nodes are online from the Jenkin's master's perspective: <https://ecombuild.wsgc.com/jenkins/computer/>

Mac agents 12, 13, 22-25, and sitespeedio-1 and 2 should all be online. If they're not, that's when we need to take corrective action. Yes, at that point you would probably need to access the **Mac Minis directly through the console**.

<https://rkcomctr01.wsgc.com/access/> — use a_account to login

Mac agents 12, 13, 22-25, and sitespeedio-1 and 2 should all be online
